

HCL forms new partnership with ReportSource

Onshore Enterprise Performance Management by ReportSource, Offshore Delivery by HCL

ERP is used to run the business, EPM is used to manage the business via a single portal

The demand for streamlined onshore Enterprise Performance Management (EPM) solutions is increasing, but at the same time companies are looking for more financially viable delivery solutions. HCL has the technical capabilities to deliver these solutions from its offices in India. As a result the HCL/ReportSource partnership not only enables clients to manage all planning, reporting and analytical data speedily and efficiently from a single source, but also gives clients access to round the clock support and technical resources. The deal means clients get a significant reduction in total cost of ownership (TCO).

Strengths created by this partnership:

- Business strategy planning and analysis
- Design and solutions architecture best practice
- Business process re-engineering, change management and user training
- A Methodology for Performance Management (MPM) implementation model
- Technical product expertise and support

What are the benefits for clients of an offshore delivery model?

- Cost savings on resources
- Accelerated delivery time
- A support framework tailored the to solution
- Global presence enabling international roll-out of solutions
- Support of end-to-end ownership from strategy through implementation and maintenance

ReportSource is a UK-based Oracle Certified Partner specialising in Enterprise Performance Management and Business Intelligence.
